Does NappaTile have acoustic properties?

Yes, NappaTile offers products with acoustic properties. The NRC rating increases when paired with acoustic coverings.

Are all patterns acoustic?

All patterns consisting of padded tiles will provide acoustic properties. The NRC rating will range depending on the proportion of padded tiles used in the design.

How can we achieve the highest sound absorption?

Using our acoustic coverings on padded tiles will provide the highest sound absorption at 0.60 NRC.

Can patterns be customized to increase acoustical properties?

Yes, we currently have five acoustic coverings available - Como, Ostro, Pampero, Pebbled, and Sirocco. Standard patterns can also be customized to increase the number of padded tiles in the layout.

Has NappaTile been tested for sound absorption?

Yes, the tiles have been tested for sound absorption, and reports of the results are available. Contact your local sales rep or customer service for more information.
